Notices of Appeal were received from Ms. Laura Peaire and Ms. Paula McGinnis on May 25, 2015 with respect to the April 8, 2015 decisions of the Director, Red Deer-North Saskatchewan Region, Alberta Environment and Parks, to issue to BURNCO Rock Products Ltd.:

- *Water Act* Licence No. 00317655-00-00 to operate a works and to divert up to 99,000 cubic metres of water annually from the source of water for commercial purposes (aggregate washing);

As the normal time limit prescribed for filing an appeal of a *Water Act* approval is seven days, the filing of the Notices of Appeal appeared to be filed late because the Approvals were issued to BURNCO on April 8, 2015. The Appellants were requested to indicate to the Board the reasons for the extension of time to appeal, and provide an explanation as to why the appeals were filed outside of the seven day time limit.

In its letter of July 27, 2015, the Board dismissed the appeals of the three *Water Act* Approvals for being filed late but advised it would proceed with the *Water Act* Licence appeals. The Board issued its full decision on September 29, 2015.

In consultation with the parties, a mediation meeting was held on October 8, 2015 in Edmonton regarding the appeals of the Licence. As a result of the resolution reached at the mediation, the appeals were withdrawn. On October 9, 2015, the Board discontinued its proceedings and closed its files in these matters.
